

This document contains:

- The Event Covid-19 risk assessment and risk mitigation plan in accordance with the [FEI Policy for Enhanced Competition Safety during the Covid-19 Pandemic](#)
- The Event Approved Schedule

Given the current covid-19 situation, please note that the FEI's approval of a Schedule should not be taken as an absolute guarantee that the Event will definitely go ahead. The decision whether the Event can take place must be made by the OC and NF in close consultation with the applicable domestic government and public health authorities. It is the responsibility of each Participant to check the status of the Event prior to planning his/her travel to the Event.

Risk assessment for COVID-19

The questions below will enable OCs to review the additional considerations specific to sports, and thus inform their risk assessment of COVID-19 associated with their Event. This will help OCs understand and manage any additional risk from COVID-19.

The risk assessment should be reviewed and reassessed regularly during the planning phase and updated immediately prior to the transition to the operational phase, especially in light of the rapidly evolving nature of the outbreak. Reference should be made to the latest technical guidance and situation reports on the WHO website.

The risk assessment for COVID-19 associated with the Event must be coordinated and integrated with the host country's national risk assessment for COVID-19. The person completing the questionnaire should include input from the local public health authorities, consult WHO's latest technical guidance and ensure that there is an up-to-date evaluation of the epidemiological situation.

Please answer Yes (1) or No (0) to the following questions to determine a risk assessment score that incorporates factors specific to sporting events

Additional risk of COVID-19 to the sporting event	Yes (1)/No (0)	Score
Will the event be held in a country that has documented active local transmission of COVID-19 (community spread)?	1	1
Will the event be held in a single venue or multiple venues/cities/countries? (single venue = 0; multiple venues = 1)	0	0
Will the event include international participants (athletes and spectators) from countries that have documented active local transmission of COVID-19 (community spread)? (NB: if the Events does not involve spectators, please clarify this in the comments to the questions in relation to spectators in the "Mitigation Checklist" sheet)	1	1
Will the event include a significant number of participants (athletes or spectators) at higher risk of severe COVID-19 disease (e.g., people over 65 years of age or people with underlying health conditions)?	1	1
Will the event include sports that are considered at higher risk of spread for COVID-19 (eg, contact sports)?	0	0
Will the event be held indoors? (Yes = 1; No = 0)	0	0
Total COVID-19 risk score		3

Mitigation checklist for COVID-19

Mitigation measures assess the current effort and planning to reduce the risk of spread of COVID-19 disease for the event. As mitigation measures can reduce the overall risk of the sporting event contributing to the spread of COVID-19, they should be taken into account after the risk assessment has occurred to gain a clearer understanding of the overall risk of transmission and further spread of COVID-19, should the event be held. Together with the risk assessment score, the mitigation measure will contribute to the decision matrix and influence the assessment of the overall risk of transmission and further spread of COVID-19 in relation to the event.

III. THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

The Long version of this Code can be obtained from the Fédération Equestre Internationale, HM King Hussein I Building, Chemin de la Joliette 8, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English. The Code is also available on the FEI's website: <http://inside.fei.org/>.
